

# CONSTRUCTION OF THE GREENHOUSE COMPLEX Kryvyi Rih

## Project information

- **Project description:** construction of the industrial greenhouse complex (protected ground) for the cultivation of vegetables (cucumbers, tomatoes) in Kryvyi Rih (Dnipropetrovsk region) on 1 ha land plot.
- **Project placement:** Kryvyi Rih, Dnipropetrovsk region.
- **Company resources for the project implementation:** land plot.
- **Project costs:** USD 500 thous.
- **Project implementation period:** from 8 to 12 months
- **Payback period:** 14 months

## Project product

- **Production, processing and sale** of fresh agricultural products during the year.

## Project unicity

- In the Ukrainian market, the share of imported fresh vegetables is about 30% due to the strong demand for the products in the domestic market.
- Large city population (as of 01.10.2016 - 640.93 thous. people.
- Lack of industrial greenhouses for growing vegetables in the city.
- Availability of market outlets.
- Stable demand for vegetable growing products.

## Forms of cooperation

- 100% investment capital.

## Project initiator

- Kryvyi Rih City Development Institution
