Villages	1481
Settlements, total	1501

Dnipropetrovsk region is located in the steppe and forest-steppe zones (forests occupy 3,9% of the region area). From the northwest to the south-east the region crossed by Dnipro River, with its developed river transport infrastructure, the basin of this river includes its tributary streams, such as Oril, Samara, Suras, Bazavluk, Inhulets and others. In the south, river is bordered by the waters of the Kakhovka Reservoir, with the corresponding river

ports. In the region there are about 1,5 thousand reservoirs and ponds with area of more than 26 thousand ha. There is also a well-developed system of melioration. The climate is moderately continental and characterized by relatively cool winters and warm summers. The average annual temperature varies between +7 - +9 °C. The coldest month is January (-5 - -7 °C), the warmest month is July (+22 - + 23 °C). The annual rainfall is 430 - 490 mm. The duration of vegetation period lasts 210 days. The solar activity during the year is 240 days on average. The level of solar radiation is 1300 -1450 kW/m². Due to the diversity and importance of natural resources, Dnipropetrovsk region is one of the richest in Ukraine. The fertile black soils are prevailed almost in all territory of the region. The extensive irrigation system suitable for intensive agriculture. Dnipropetrovsk region is rich in minerals. There are significant mineral reserves of iron and manganese ores, stone and brown coal, rare and non-ferrous metals. The number of permanent residents of Dnipropetrovsk region as of January 1, 2017, according the estimation, amounted to 3227,1 thousand. people. Among them 2 695,1 thousand. people (83,5%) are residents of urban settlements and 532,0 thousand. people (16,5%) are residents of rural areas. In the structure of the regional population 54,3% (1751,5 thousand. people) are women and 45,7% (1475,6 thousand people) are men. The representatives of more than 30 nationalities are living in the territory of the region, namely: Russians (17,6%), Belarusians (0,8%), Jews (0,4%), Armenians (0,3%), Azeris (0,2%), Moldovans (0,12%) and others.

THE AGE PATTERN OF REGIONAL POPULATION

EDUCATION

Dnipropetrovsk region is one of the leading academic centers of Ukraine. In the region, as of the beginning of 2016-2017, there are:

53 HIGHER EDUCATIONAL INSTITUTIONS OF ALL ACCREDITATION LEVELS, IN WHICH STUDIES 119,9 STUDENTS

		Number of students in HEI	Number of prepared / graduated specialists
TOTAL	53	119,9 (thousd people)	30,8 (thousd people)
Higher educational institutions of III-IV accreditation levels (universities, academies, institutes)	24	100,9 (thousd people)	24,9 (thousd people)
Higher educational establishments of I-II accreditation levels (colleges, technical schools, colleges)	29	19,0 (thousd people)	5,9 (thousd people)

58 VOCATIONAL SCHOOLS

		Number of students in technical schools	Number of prepared / graduated specialists
Vocational technical schools	58	23,7 (thousd. people)	14,5 (thousd. people)

In „Top 20 Ukraine” ranking, 3 Higher Education Institutions of Dnipropetrovsk region hold leading positions:

- The National Mining University;
- Oles Honchar Dnipropetrovsk National University;
- National Metallurgical Academy of Ukraine.

Also, the leading Higher Educational Institutions of Dnipropetrovsk region of III-IV accreditation levels are:

- Ukrainian State Chemical Technology University;
- Dnipropetrovsk Medical Academy of the Ministry of Health of Ukraine;
- Dnipropetrovsk National University of Railway Transport named after Academician V. Lazaryan;
- Dnipropetrovsk State Agrarian and Economic University;
- Prydniprovsk State Academy of Civil Engineering and Architecture;
- Dnipropetrovsk Alfred Nobel University;
- University of Customs and Finance;
- Kryvyi Rih National University;
- Dnipro State Technical University.

3,5 thousd. of foreign students from 24 countries of the world are studying at the above-mentioned Higher Educational Institutions.

The development of regional transport system is determined by the high level of production concentration and densely-populated area. Its transport network is an integral part of Ukraine entire network. The aviation, railway, automobile, pipeline and river transport is developed in the region. In the period of 2013-2016's region occupies a leading position in terms of freight traffic, namely 366.4 million tons by railway transport, 1.7 million tons by river transport, 1.3 billion tons by road transport and 6.3 thousand tons by air transport.

HIGHWAY TRANSPORTATION OPERATION

The highway transport is one of the key types of goods and passengers transportation, including on international routes.

The territory is crossed by two European routes **E50** (Paris - Prague - Uzhhorod - Vinnytsia - Dnipro) and **E105** (Kirkenes (Norway) - Kharkiv - Novomoskovsk - Simferopil). Three national highways **H11** (Dnipro - Mykolaiv - Odesa), **H08** (Dnipro - Kyiv), **H23** (Kropyvnytskyi - Kryvyi Rih - Nikopol, Zaporizhzhia) connect Dnipropetrovsk region with seaports, capital and industrial centers of the region.

The largest transportation hub of the region is the city of Dnipro. The highways network connects it with all towns and urban type settlement of the region and other regions of Ukraine. The length of public roads in the Dnipropetrovsk region is 9166,6 km, including roads of national significance - 2998,0 km and roads of local significance - 6182,6 km.

RAILWAY TRANSPORTATION SERVICE

The railway transportation is the main mode of Dnipropetrovsk region transport. By saturation with railways, the region is the leader in the state.

The developed network of railway tracks of regional branch „Prydniprovskia Zaliznytsia” of Ukrzaliznytsia Private Joint Stock Company in the territory of Dnipropetrovsk region is 1023,7 km against the entire operational length of 3208 km. The main part of the goods transportation is carried out on such sites as:

Chaplyne – Synelnykove – Nyzhnodniprovsk – Verkhivtseve – Piatykhatky; Zaporizhzhia – Apostolove – Kryvyi Rih – Dolynska; Pokrovsk – Pavlohrad – Novomoskovsk – Kamianske.

Almost a half of all cargoes that are sent by rail are iron and manganese ore of the Kryvyi Rih and Nikopol basins. In the region, only 1/3 of this ore is transported by railway road, and the rest

is sent to metallurgical plants and exports. Building materials ranks second in the structure of cargoes that are sent by Prydniprovskia railway road, ferrous metals ranks third.

Among the cargoes received by Prydniprovskia railway road stations are predominated coal, which is exported from Western Donbass, iron ore, auxiliary metallurgical raw materials and construction materials. The largest senders of ferrous metals are Kryvyi Rih and Dnipro, building materials and fluxes - stations adjacent to the Nikopol port.

The main flow of transit cargo is sent to the Black Sea ports in Kherson and Mykolaiv, as well as for export to the West. In the flow of transit cargo the main role is played by coal, ferrous metals, grain and timber cargoes.

RAILWAY HUBS:

Nyzhnodniprovsk-Vuzol, Dnipro, Synelnykove-2, Pavlohrad-1, Novomoskovsk-Dniprovskiyi, Kamianske, Apostolove, Kryvyi Rih, Piatykhatky.

Dnipro branch of «Center of Transport Service «Liski» of the Ukrainian Railways Public Joint Stock Company (Dnipro, 3, Krotov, www.liski.ua) includes a network of rail freight terminals that offer:

- customs complex with the representatives of state customs control, environmental and phytosanitary control;
- arrival place of highway transport with cargo under customs control;
- covered warehouse hangar type;
- platform for the processing of heavy goods, is equipped with gantry cranes (with the possibility of connecting an electromagnetic washer to unload metal from gondola cars);
platforms for processing 3-tons, 5-tons, 20-tons, 40-foot containers.

All cargo facilities have the ability to simultaneously service rail and road vehicles.

To meet the needs of customers, the department has production sites in such cities of Dnipropetrovsk region as: Kamianske, Pavlohrad, Novomoskovsk, Synelnykove and settlements: Pokrovka, Vasylkivka, Partyzanske.

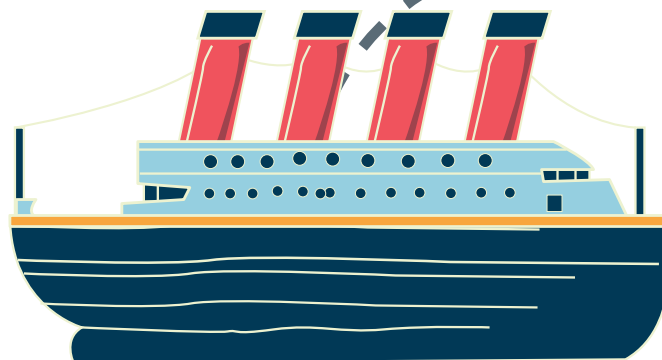

PASSENGER TRAFFIC OF RAILWAY STATIONS

Kamianske	6870
Chaplyne	4100
Piatykhvatky	2900

The domestic transportation is carried out in the direction of Kyiv, Lviv, Odesa, Kharkiv from the railway stations of Dnipropetrovsk region www.uz.gov.ua

RIVER TRANSPORT

From north to south Dnipropetrovsk region is crossed by the main water artery of the country the Dnipro river. Dnipro, Kamianske and Nikopol river ports of the company «Ukrrihflot» ASK and «Dniprodzerzhinsk river port» PJSC operated in region. The vessels of the «river-sea» type provide direct international cargo transportation with access to the Black, Marmara and Mediterranean seas. The largest river port of Ukraine is located in the city of Dnipro. Due to its favorable geographic position, it fully meets the needs of adjacent industrial regions in the transportation, storage of various metal, grain, coal, containers, etc.

GOODS TRANSPORTATION BY RIVER TRANSPORT (thousand tons per year)

Services	Transshipment and storage of goods Cargo-and-passenger transportation

CONTAINER LINE «TAVRIA LINE» AND PORT COMPLEX «AKVAREL»

The Container line «Tavria Line», is the first Ukrainian line, which delivers cargo in sea containers to the central part of Ukraine - Dnipropetrovsk region, using its own vessels.

The Tavria Line operates in such direction as: Constanta (Romania) - Dnipro (port complex «Akvarel»). Constanta port is the largest transit port in the Black Sea basin.

This scheme of transportation makes it possible to significantly simplify the way of goods delivery in Dnipropetrovsk region, by passing the overloaded sea ports of Ukraine - Odesa and Illichivsk.

Nowadays, Tavria Line, cooperates with such world lines as APL and CMA CGM, which allows to deliver goods from the countries of the Southeast region (China, Indonesia, Malaysia, etc.), as well as India, Pakistan, Turkey, the North Africa and the USA.

Port complex «Akvarel» (www.aquarelle.net.ua) provides the following services:

- reception of «river-sea» vessels for processing operating under Ukrainian and foreign flags
- fastest processing of all types of vessels (container carriers, bulk carriers, etc.);
- loading and unloading operations with all types of containers;
- loading and unloading operations with packed cargoes;
- loading and unloading of oversized cargo weighing up to 45 tons;
- loading and unloading works of ferrous scrap;
- storage and accumulation of various types of cargo;
- reception and handling of goods in railway transport;
- loading-unloading to/from containers;
- delivery of containers/cargoes by own transport to a warehouse all over Ukraine;
- internal port escort;
- services for customs clearance of transit, export / import cargo, ships on the port complex territory;
- services for the export / import of containers through lines: APL and CMA & CGM.

AIR TRANSPORT

In Dnipropetrovsk region there are two international airports and a cargo terminal that connect the region with countries of the far and near abroad.

The international airport «Dnipropetrovsk» (DNK) is: «4C» class. Runway strip: length - 2850 m, width - 44 m. The international air transportations are carried out by aircrafts of Boeing, Airbus, Embraer, AN and others. The airport accepts helicopters and light aircraft of all types, around the clock. There is 1 operating terminal with a capacity of 700 passengers per hour.

International airport «Kryvyi Rih» (KWG) belongs to the «B» class. The airport has one operating terminal for 200 passengers per hour.

ROUTES SCHEME OF KRYVYI RIH AIRPORT

Airport	Flight
Airport, Kryvyi Rih city, tel. +38 (056) 440 02 12	Antalya (AYT) BAY 4401; SSV 2611

The cargo air transportation is carried out by the **Aviation Transport Company «Yuzhmashavia»**, which provides the following services:

- cargo air transportation;
- services of the airfield complex;
- basing and protection of aircraft;
- maintenance of aircraft;
- reception of charter flights;
- services for storage and customs clearance of goods;
- providing customers with machinery and highway transport;
- VIP passenger transportation.

TRANSPORTATION OF GOODS BY AIR TRANSPORT (thousand tons per year)

2013	2014	2015	2016
2,0	0,4	1,2	2,7

The aviation Transport Company «Yuzhmashavia» (1, Kryvorizhska Str., Dnipro city) www.yuzmashair.com.ua) has an airfield complex in the territory of Dnipropetrovsk airport with an area of 22.7 ha. This complex includes certified parking for aircraft, commercial warehouses, production facilities and areas where airfield engineering, equipment, in-flight tanker force are located.

The airline provides logistics services. During loading and unloading operations, forklift and telpher are used in warehouses. The territory is protected by modern video surveillance systems.

The Company has its own IL-76TD, UR-78785 and UR-78786 aircraft, the cargo cabin of which is 220m³. This allows to carry out cargo transportation of oversized and super heavy cargo to the CIS countries, Asia, Africa and Europe.

PIPELINE TRANSPORTATION

The pipeline transportation is of a great importance. It provides regional districts with oil, oil products, gas, coming mainly from other regions. The pipeline transport has a dense network of gas pipelines that supply natural gas to all industrial centers and many rural settlements of the region. The gas pipelines connect the Shebelinka gas field (Kharkiv region) with such cities as: Dnipro, Kryvyi Rih, Nikopol and Kamianske.

COMMUNICATIONS

The telecommunication infrastructure is successfully developing in the region. The mainstream fiber-optic and wireless data transmission channels are created, providing high-quality telecommunication services to all consumers in the region.

The region is provided with mobile communication of **GSM and CDMA standards**.

Most of the territories are covered by high-speed wireless Internet using 3G technology.

The introduction of information technology and modern postal equipment allows to organize the provision of electronic and hybrid mail services, implement banking operations, various types of settlements and provide information services.

AGRICULTURAL LOGISTICS

For grain and industrial crops storage there are 68 grain storage facilities with a total capacity of 2520,8 thousand tons in Dnipropetrovsk region. In addition, agricultural enterprises have 1,522 grain storage facilities with a total capacity of 1858,7 thousand tons, so the total storage capacity of grain and industrial crops is 4379,5 thousand tons.

The total number of storehouses in the region is 62 units, including vegetables - 46, potatoes - 9, fruits - 7. The total storage capacity is 173.1 thousand tons, including for storage of vegetables - 84.9 thousand tons, potatoes - 59.8 thousand tons, fruit - 28.4 thousand tons. The stores with refrigeration equipment make up 105.9 thousand tons from the total capacity.

An extensive network of modern elevators has been created in the territory of Dnipropetrovsk region. This network ensures the reception and transshipment of goods by road, rail and river transport. The practice of building elevators, storage facilities and refrigerators becomes mainstream among regional farmers. These facilities are being built in compliance with modern and European standards, in order to increase exports and bring products to the market in the optimal period. The number of modern elevators is growing every year and this direction is investment attractive.

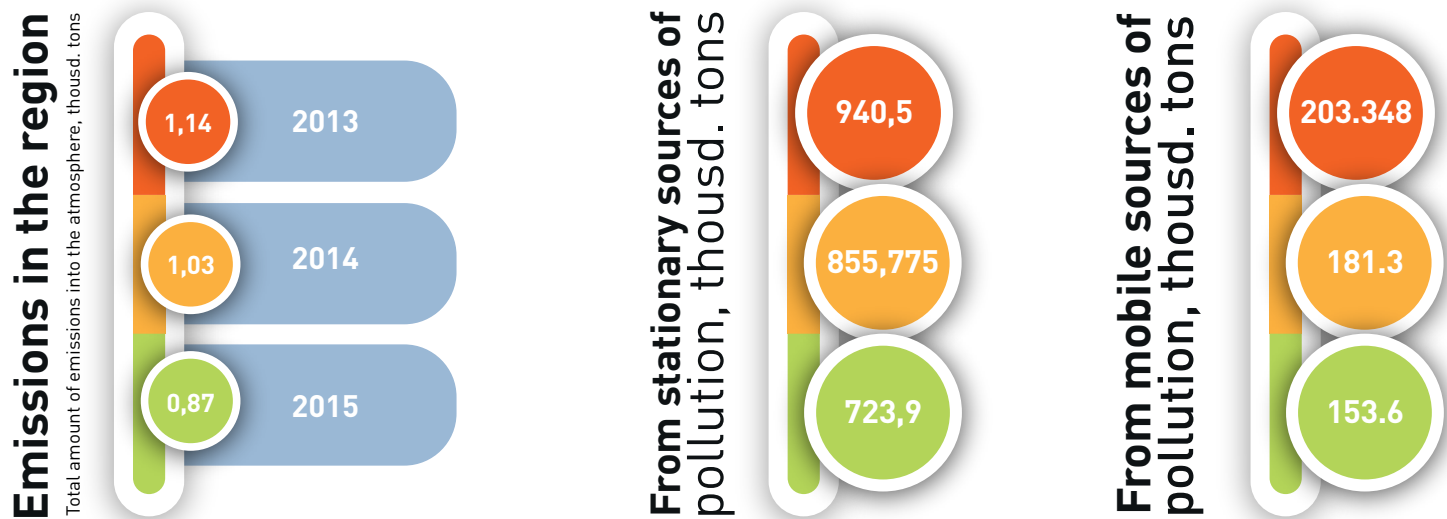

According to the Strategy for the Development of Dnipropetrovsk region for the period up to 2020 ecological safety and climate protection defined as one of key priorities of region's development.

The main directions of environmental activity are focused on:

- improvement of ecological state of the Dnipro basin;
- reduction of atmospheric air pollution level;
- assistance in solving waste management problems (firstly, toxic and insufficient waste);
- expansion of the nature reserve fund area and formation of regional ecological network;
- reforestation and extension of their area, preservation of biological and terrains diversity, protection of flora, fauna and forest ecosystems;
- improvement of environmental monitoring system of the region;
- improvement of the public awareness and assistance in its participation in the decision-making process on environmental issues.

ATMOSPHERIC AIR

As a result of economic decisions implementation in the region, positive dynamics of pollutants emission reductions has been formed.

POLLUTANTS EMISSION (thousand tons per year)

Populated areas	2013	2014	2015
Dnipropetrovsk region	940,5	855,775	723,9
Dnipro city	104,8	87,725	48,5
Kryviy Rih city	351,778	351,778	327,031
Kamianske city	115,45	327,374	100,992
Vilnohirsk city	0,778	105,032	1,276

Populated areas	2013	2014	2015
Zhovti Vody city	1,009	1,0	0,931
Novomoskovsk city	0,165	0,117	0,092
Nikopol city	15,339	21,49	19,469
Marha nets city	1,011	0,453	0,386
Pokrov city	13,798	13,132	10,427
Pavlohrad city	0,419	0,418	0,377
Synelnykove city	0,041	61,224	0,06
Pershotravensk city	1,108	1,182	0,848
Ternivka city	43,033	43,819	42,229

Within the framework of the volunteer project EcolInfo, IT-specialists of the region developed online service that allows you to get information about the environmental situation at set point.

According to the requested geolocation on the web-site www.ecoinfo.pro you can get information on environmental condition in the form of data eco-layers (air pollutants, landfills, hydrometeorology, water quality, soil, etc.). The service also provides information on pollutants within a radius of 5 to 50 km from the requested point.

FORMATION AND SOLID WASTE MANAGEMENT

In 2016, in Dnipropetrovsk region 700 thousand tons of solid waste were formed, which amounts to 0,3% of total volume – 205,9 million tons. The considerable part of the waste is accounted for economic activity of enterprises and organizations.

In 2016, in order to improve the ecological state of the region, the Strategy of Solid Waste Management was implemented. The Strategy is intended for 10 years and has the following objectives:

- quality improvement of solid waste transfer logistics;
- separate collection of solid waste;
- revision of waste costs;
- industrial park renovation.

For the purpose of waste management process optimization, some municipalities are united into sub-regions. In particular, the cities of Pavlohrad, Ternivka and Pershotravensk, as well as Pavlohrad and Petropavlivka districts formed the «Western Donbass sub-region» with 45 thousd. tons of solid waste total annual amount.

The developed project «Creation of solid waste object within the «Western Donbass sub-region» provides to lease 10 hectares plot and solid waste that is formed in the specified territories.

ENERGY-EFFICIENT OFFERS

The significant projects are being implemented in Dnipropetrovsk region under **the Program to**

Support the Green Modernization of the Ukrainian Economy in cooperation with the German governmental organization Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH. These projects are aimed to promote the ideas of green economic development:

- create the conditions for implementation of modern and environmentally safe means of production;
- analyze the obstacles that prevent companies from investing in new technologies;
- promote professional exchange between enterprises and communicate with public authorities.

In the framework of Green Chamber Initiative for Sustainable Development project, there has been established **the Committee of Green Technology Providers** in order to implement energy-efficient and environmentally friendly technologies adoption, which offers to enterprises the following services:

- energy audit;
- identification of irrational energy consumption sources;
- development of recommendations on the basis of technical and economic analysis;
- development of energy saving and rational energy usage program;
- determining priority of proposed measures based on the costs analysis and project payback.
- energy management system construction:
 - creation of enterprise energy management system with the possibility of certification according to international TUV SUD standards;
 - training of enterprises' relevant specialists.
- ecological support (eco-outsourcing):
 - environmental audit of the enterprise territory;
 - organization of environmental work;
 - organization of generated waste calculation;
 - regular measurement of pollution sources;
 - obtaining permits and emission limits; preparation and submission of relevant reports on the formation, treatment of I-III hazard classes waste disposal, atmospheric air protection, water usage, environmental protection costs.

Website: www.greenchamber.org.ua

Green Solutions for Business – Unity for Sustainable Development project aims at spreading the practices of energy-efficient, resource-saving and environmentally friendly management among economic entities by means of Dnipropetrovsk region enterprise database formation. This database will include enterprises, which are used green technologies, develop, produce or import them.

The base of green solutions will cover 400 enterprises: 30-40 large, 150-200 middle ones, others - private enterprises, etc.

The database contains reliable and up-to-date information in three languages (Ukrainian, German, English), has a feature of searching among 400 enterprises, and the classification according to the types of economic activity.

Website: www.gs.dp.ua

Dnipropetrovsk region is a wonderful, marvellous and unique land. This is inimitable natural wealth, prodigality of land, steppe vast, wide full-flowing Dnipro. Prydniprovia is the land where the Zaporizhian Cossacks were born.

And, at the same time, Dnipropetrovsk region is a powerful industrial and scientific center, a reliable foundation of the Ukrainian economy. These are mines, giant shops of metallurgical enterprises. This is a solid base of domestic rocket science. Also missile carriers, spacecraft, software products, electronic services of IT companies, products of the chemical, light and food industry, manufactured at the enterprises of Dnipropetrovsk region, are well-known all over the world.

Dnipropetrovsk region is the true heart of Ukraine, remains one of the most developed regions of Ukraine.

TOURISM

The Industrial tourism is a search for new impressions. Every year, this type of travel is growing in popularity, although it is one of the youngest destinations in tourism.

The Industrial tourism in Dnipropetrovsk region is actively developing. The center for its development is the city of Kryviy Rih. Here you will see the open pits with the longest railroad and 5 open pits have a depth that allows you to place the Eiffel Tower. A very interesting place, which is worth attention, is the open pit of the Southern Iron Ore Enrichment Works. It is the deepest not only in Ukraine, but also one of the largest in Europe. It's hard to imagine that it was created by a human. The size are impressive: the length is 3 km, the width reaches 2.6 km, the depth is 339 m, and the total area of the open pit is 570 ha.

An interesting point of the industrial tour is visiting the Interpipe Steel factory in Dnipro www.interpipe.biz. The factory is the most advanced electrical steelmaking factory in Europe and the first steel factory in Ukraine that has been built in the territory of Ukraine for the last 40 years. Also the factory is famous for its art objects, whose author is Olafur Eliasson, Danish artist. The most famous of them is «Dnipropetrovsk's Sunrise», which was specifically conceived for the INTERPIPE STEEL factory workers and the city of Dnipro. The 60-metre-tall artificial sun can be seen from all points of the compass and «Your heat mural» is a group of large-scale images on the factory façade. It is worth noting «Your time tunnel» - which is located right at the entrance

Dnipropetrovsk region is the center of the rocket

and space industry. So, these objects will be interesting for the guests of the region:

- Museum of Space Technologies
- Outdoor Rocket Park,
- Youth National Aerospace Education Center named after O.M. Makarov www.unaec.dp.ua

Mild climate, mineral springs, and therapeutic muds of Dnipropetrovsk region - all this creates conditions for treatment and rest. In addition, 15 deposits of mineral waters are explored in the region, which provides the opportunity to fully meet the needs of the population in medical and mineral waters.

The real pearl of Dnipropetrovsk region is **Solonyi Lyman resort** in Novomoskovsk district - a plain mud and balneological resort of the steppe zone, located in 50 km from the city of Dnipro. Here is a unique deposit of medical muds, which in combination with mineral water is successfully used for the treatment of various diseases, prevention and rehabilitation.

The recreational potential of rivers, lakes and reservoirs of Dnipropetrovsk region contributes to the development of **water tourism**. And the wealth of climatic, plant, fish resources and proximity to the water arteries of cultural-historical heritage objects allows creating routes of water tourism of various thematic directions.

In the Dnipropetrovsk region, **diving** is actively developing. There are several clubs and centers of diving and underwater hunting there. For diving, there have been used places located in 50 km from Dnipro, Dniprodzerzhynsk Reservoir is also interesting for divers, which is in 25 km from Dnipro, where the depth is small (3-6 m), and the underwater world is rich in diverse of flora and fauna. There are also interesting places for diving in the Dnipro-Donbass Channel.

Dnipropetrovsk region is full of resources for the development of **hunting tourism and recreational fishing**. The development of fishing is due to the presence of 56 species of fish, 26 of which are of interest to fishing.

The **green tourism** is more and more growing in popularity among residents and guests of the region. Guests and residents of the area are offered 8 centers and holiday homes. There are more than 20 unique centers and estates of green tourism in Dnipropetrovsk region, one of which is **the Galushkivka farm** www.galushkivka.com.ua, which was founded at the end of the seventeenth century by the Zaporizhian Cossacks, who settled in the territory of the Wild Field. At present the village is a single complex where the experimental model of the Cossack Fortification «Sich» and 3 peasant farmsteads, built in the late 19th century, are located.

The brightest landmarks of Dnipropetrovsk region are:

- **Petrykivka decorative painting**, which became a bright page in the history of the culture of the Ukrainian people and became an intangible heritage of UNESCO in 2013.
- **Old songs of Dnipropetrovsk region of the Cossack Age (XV-XVII centuries)**, which require immediate protection, so that is why in 2016 they were listed on the UNESCO Intangible Cultural Heritage List.

To provide information on tourist and recreational opportunities of Dnipropetrovsk region, there are following Tourist Information Centers:

TOURIST INFORMATION CENTERS

	<p>Tourist center "Ryba Andrii" organizes excursions around Dnipropetrovsk region.</p>	<p>13, Kniazia Volodymyra Velykoho Str., Dnipro city, www.visitdnipro.com</p>
	<p>The Center of folk art "Divokrai" was founded with the purpose of introducing the guests of Dnipropetrovsk region to the history of Pridniprovia, preserving the historical-cultural and material-spiritual heritage for future generations, development of tourism and leisure</p>	<p>52, Starokozatska Str., Dnipro city, www.divokray.com</p>

INTERNATIONAL RELATIONSHIPS

Dnipropetrovsk region cooperates with 23 partner regions from 12 countries in the framework of concluded bilateral agreements. The most active cooperation is with the Lower Silesia Voivodship (Poland), the Bratislava region (Slovakia) and the region of Yas-Nagykun-Szolnok (Hungary). At the level of the regions' cities, there were concluded 18 agreements on partnerships with cities in 15 countries of the world.

DIPLOMATIC AND CONSULAR OFFICES

In the territory of Dnipropetrovsk region there are 7 diplomatic institutions, in particular the General Consulate of the Federal Republic of Germany and the Israeli Cultural Center in Dnipro at the Embassy of the State of Israel in Ukraine.

VISA APPLICATION CENTERS

In the regional visa application center there are 15 visa application centers of the EU member states, which provide an opportunity to obtain visas for training and internships.

INTERNATIONAL PROGRAMS

As part of the implementation of joint international projects, Dnipropetrovsk region actively cooperates with international organizations, in particular GIZ (Germany), DESPRO (Switzerland), USAID (USA), United Nations Development Program, CIDA (Canada) in the development of social communities' infrastructure in connection with the increase of Internally Displaced Persons, the introduction of energy-efficient solutions of enterprises and communities in the region, the creation of dairy and grain cooperatives, providing the population with quality drinking water. In two years, international support amounted to more than USD 8 mln.

REGION ECONOMY

INDUSTRY

ENGINEERING

BUILDING

AGRICULTURE

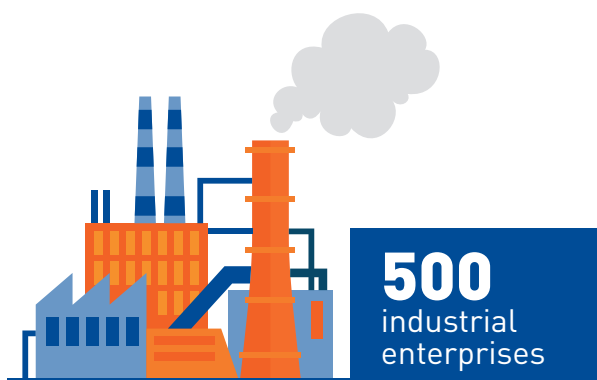

POWER INDUSTRY

SMALL AND MEDIUM ENTERPRISES

INFORMATION TECHNOLOGY

SCIENTIFIC AND INNOVATIVE ACTIVITY

FOREIGN ECONOMIC ACTIVITY

The basis of the mining and smelting complex is **47 enterprises:**

24
mining enterprises

23
enterprises of ferrous metallurgy

The region has a strong industrial potential. It is characterized by a high level of heavy industry development. The enterprises of mining and smelting complex account for 60.3% of all sold products of the region. In the region there are more than 500 industrial enterprises of almost all types of economic activity.

In Dnipropetrovsk region, 18.4% (UAH 324.4 bln) of all sold industrial output of Ukraine is produced.

By this indicator, the region ranks first in Ukraine.

INDUSTRIAL PRODUCTION STRUCTURE IN DNIPROPETROVSK REGION

Industrial production types	%
Mining industry	24,0
Metallurgy	34,4
Engineering	2,8
Chemical production	4,2
Rubber and plastic products production	3,8
Electricity, gas and steam	16,8
Coke production	1,9
Other	12,1

MINING INDUSTRY

In 2016, the turnover of raw materials amounted to 33.9% of the national and 24.0% of the total industrial production of the region.

The reserves of coal and brown coal of the region make up more than 21 billion tons. About 18 million tons of coal is produced annually, accounting for almost 25% of the total production in Ukraine. «DTEK Pavlohradvuhillia», OJSC deals with extraction.

The base of regional mining industry consists of 10 mining companies, which extract iron, manganese and rare earth ore.

«Marhanets Mining Processing Plant» PJSC, «Ordzhonikidze Mining Processing Plant» PJSC extract 100% of manganese ore in Ukraine. The Mining Processing Plants of Kryvbass produce 77.6% of the total non-agglomerated iron ore concentrate and 47.6% agglomerated iron ore concentrate in Ukraine.

PROCESSING INDUSTRY

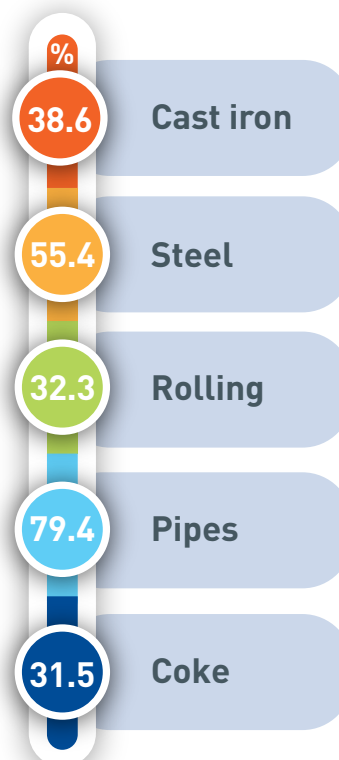

The processing industry of the region provides 16.4% of the national volume of industrial products sales. The volume of sold products is UAH 186.5 bln, or 57.6% of all sold industrial output in the region. The basis of the region's industry is metallurgy. The volumes of sold products make up 34.4% of the total volume in the region.

The pipes of large and small diameters, hollow profile of hot and cold deformation, centrifugal casting are produced at the pipe enterprises of the region («Interpipe Nyzhniodniprovsk Tube Rolling Plant» PJSC, «Interpipe Novomoskovsk Pipe-Production Plant» PJSC, «Interpipe Niko Tube» Ltd, «Centravis Production Ukraine» PJSC and others) by means of welding method.

The production of pipe-rolling enterprises of the region is exported to almost 70 countries of the world.

PRODUCTION SHARE OUT OF TOTAL VOLUME IN UKRAINE

The products are **exported to more than 35 countries of the world** and amounted to 39.5% of the volumes of ferrous metallurgy production in Ukraine.

CHEMICAL INDUSTRY

**PRODUCTION SHARE
OUT OF TOTAL VOLUME
IN UKRAINE**

34

The production of the industry accounts for **17.9% of the production volume of the chemical and petrochemical industry of Ukraine**. The volume of sales in the field of chemical substances and chemical production is 4.2% of industrial production in the region.

The paint and varnish production is one of the largest in Ukraine. Taking into account environmentally friendly new technologies, over 120 types of paint and varnish products have been mastered.

In Dnipropetrovsk region, the Subsidiary Enterprise «Caparol Ukraine», enterprise of one of the world’s leading manufacturers of high-quality front and interior paints is successfully operating.

The production of «Dniproazot» PJSC, one of the largest chemical enterprises of the country, is exported to Asia, Latin America, Central and Eastern Europe.

The largest state-owned enterprise in the chemical industry of the region is the Scientific-Production Association «Pavlohrad Chemical Plant», which specializes in the production of explosives for ore mining and processing enterprises in Ukraine. The scientific developments, software, technologies and products of the company are successfully used in Ukraine and exported to the EU, Southeast Asia, Australia, America and Africa.

Also in Dnipropetrovsk region, the Subsidiary Enterprise «Messer Ukraine», a representative of one of the world’s largest manufacturers of chemical products, is successfully operating.

MANUFACTURE OF RUBBER PRODUCTS

The share of the industry for the production of rubber and plastic products in the region is 3.8% of the total industrial output.

In the region more than 80 standard tires sizes, including large-sized and low pressure for the modern agricultural machinery, which are exported to 30 countries of the world, are mastered and manufactured.

«Ukrainian factory super large tires» Ltd is the only one in Ukraine and CIS countries that produces super large tires for dump trucks with a carrying capacity of 55 to 220 tons. **The company's products are exported to Australia, Europe, North and South America, Africa and Southeast Asia.**

LIGHT INDUSTRY

The region's light industry products are exported to such countries as:

France

Canada

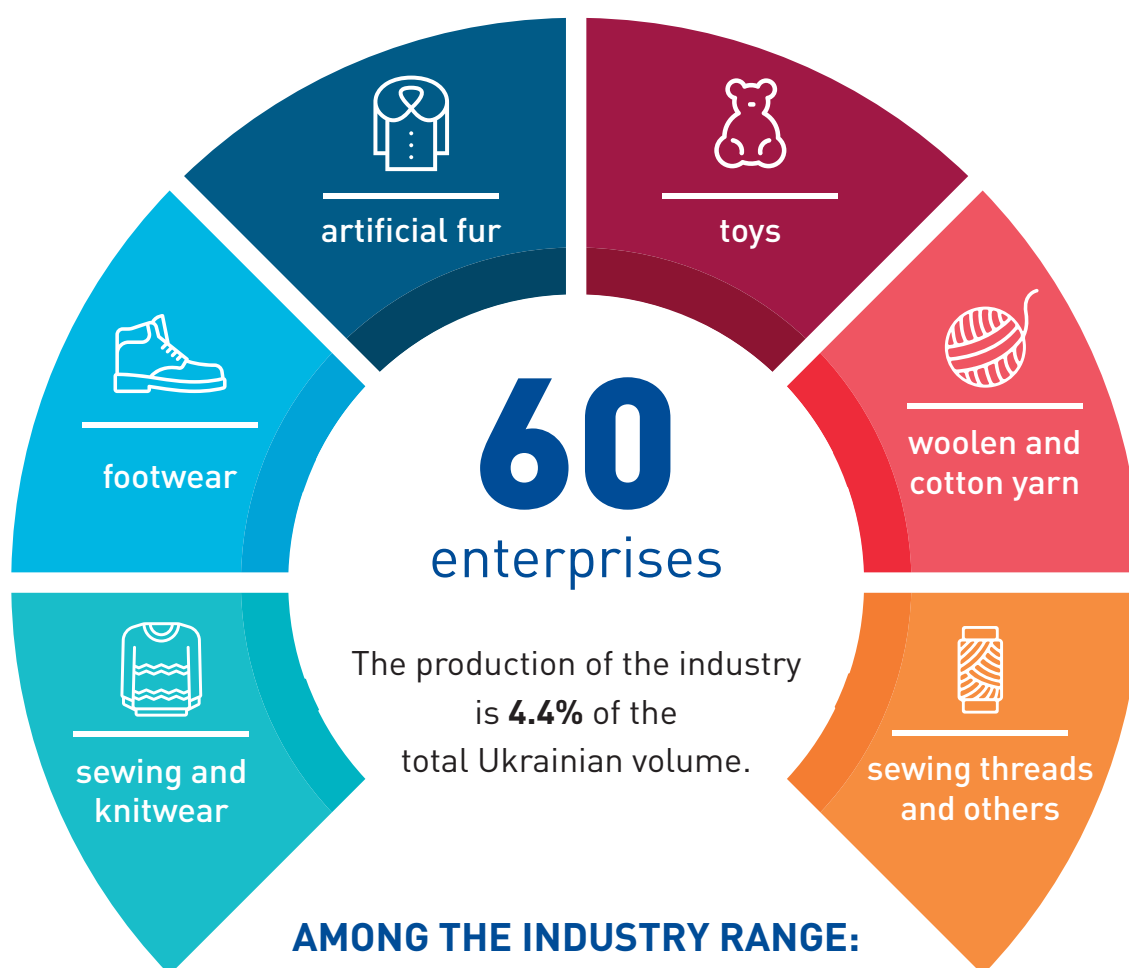

Germany

Great Britain

More than 60 enterprises are engaged in the production of knitted products in the territory of Dnipropetrovsk region, including «Dniprokozhhalantereya» Ltd, «Topline» Ltd, «Fine Fashion of Ukraine» Ltd, «Parsial» and others.

The volume of sold products of the machine-building complex makes up **2.8%** of the regional sales volume.

The products of machine building are widely known not only in Ukraine, but also far beyond its borders.

The equipment for:

- rolling mills;
- freight wagon;
- poinworks;
- automobile semi-trailers;
- a large number of equipment for the mining and metallurgical complex;
- accumulators;
- electric locomotives and other products

are being produced at the machine-building enterprises of the region:

- «Dnipropetrovsk Plant of Rolling-mill Rolls» PJSC;
- «Dnipropetrovs´k Aggregate Plant» PJSC;
- «Dnipropetrovsk Railway Switch Plant» PJSC;
- «Dniproavzhmash» PJSC;
- State Enterprise «Electrovozobudduvannia»;
- PJSC «Dniproavhonmash» and others.

The engineering branch is dynamically developing. Leading enterprises actively implement the latest technologies and carry out technical re-equipment, for example:

- at the «Dnipropetrovsk Railway Switch Plant» PJSC there have been put on production new types of products: 60E1 railroad switch of 1/9 radius of 300 m, 1435 mm rail on reinforced concrete slabs under a project with Iran; tram railroad switch with a turning pen with radius of 50 m; 7 varieties of cross-sections with welded rail endings of 49E1 type for projects with Turkey;
- at «Dnipropetrovs´k Aggregate Plant» PJSC was developed new types of products:
 - DAT - 0,09 electric motor;
 - KE-178 dispatcher;
 - HT-30D generator;
 - BRZU-115UD block;
 - 8260-12UD starter-generator;
 - hinged tractor equipment;
 - electromagnetic valves of DMKT, DMKV type.
- At the State Enterprise «SPC Elektrovozobudduvannia», there has been mastered the production of brake cylinders of the electric stock, the work on the production of dump car test sample of D6D type and adjustment of its serial production is being carried out.

SPACE INDUSTRY

Dnipropetrovsk region is the space capital of Ukraine and one of the world centers of rocket and space engineering.

The high technical equipment and qualification of engineering and working personnel allows developing and producing such environmentally friendly booster rockets as «Zenith» and other space vehicles that are unique.

The industry basis is such domestic enterprises of the space industry as:

- Design Office «Yuzhnoye»;
- The State Enterprise «Production Association Yuzhny Machine-Building Plant named after O.M. Makarov».

The Design Office «Yuzhnoye» participates in international commercial space projects «Sea Launch», «Ground Launch», «Cyclone-4» and «Vega», closely cooperates with aerospace companies of France, USA, Turkey and Brazil.

Taking into account the particular urgency of Earth observation from space, the bureau designers developed a number of Land remote sensing satellite – «Sich-1», «Sich-2», «Egypsat-1» and space systems, including ground control, data acquisition and processing complexes.

Last year, according to NASA’s order, the Cygnus transport vehicle with the upgraded Antares-230 launch vehicle delivered 2.3 tons of cargo to the international space station. This project is a joint development of the Design Office «Yuzhnoye» with Orbital Sciences Corporation.

The State Enterprise «Production Association Yuzhny Machine-Building Plant» is a world-class production complex that performs serial production of modern rocket and space technology samples. The company has mastered and introduced unique technological solutions.

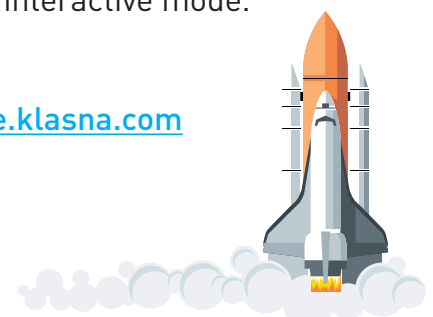

The production complex diversification makes it possible to produce products for the following types of activities:

- defense industry;
- aviation transport;
- agricultural machinery;
- civil products;
- production, testing, operation of spacecraft carrier rockets.

A particular highlight of the region is the «Virtual Aerospace School», which has been working since 2012 and allows young people aged from 12 to 18 years to acquire aerospace education in an interactive mode.

Web-site:

www.aerospace.klasna.com

Dnipropetrovsk region ranks first among the regions of Ukraine in terms of residential premises area and apartments number in residential buildings.

**LIVING
AREA**

**78,03
mln m²**

**1482
units**

**APARTMENTS
NUMBER**

In 2016, the volume of capital investments was UAH 30806,4 mln. According to this indicator, Dnipropetrovsk region ranks second among the regions of Ukraine.

Over 2,000 small and medium-sized enterprises and 40 cooperatives are engaged into the construction and special types of work.

In 2016, residential buildings with a total area of 293,0 thousand m² were accepted for operation in the territory of the region. More than half (52,3%) of the total volume of housing was put into operation in houses with two or more apartments, 47,7% in single-family houses.

Also in 2016, the volume of capital investments due to all sources of financing amounted to UAH 30806,4 mln (9.4% of the volume of capital investments in Ukraine). According to this indicator, Dnipropetrovsk region ranks second among the regions of Ukraine.

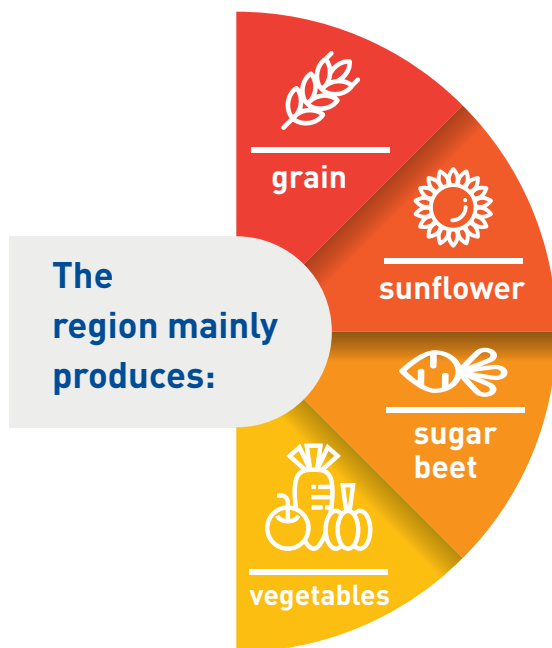

The largest foreign enterprises of the industry are «Glas Trösch Dnipropertovsk» Ltd, which produces double-glazed windows and «HeidelbergCement Ukraine» PJSC, which is engaged into cement production.

In the region there are more than 4000 agricultural enterprises.

The production of gross agricultural output in Dnipropetrovsk region is 6,0% of the total volume in Ukraine.

The agricultural production is being carried out at **2,999.3 thousd. ha** - it is **73.4%** of the total area of the region.

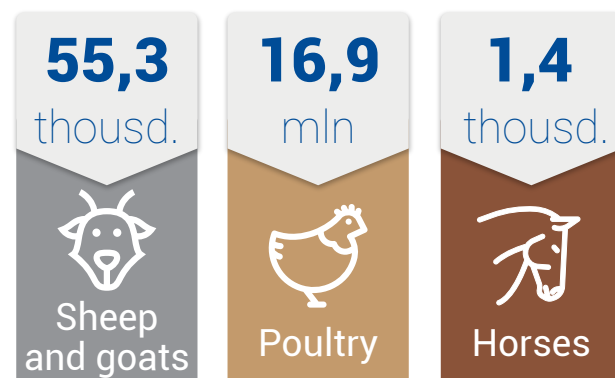

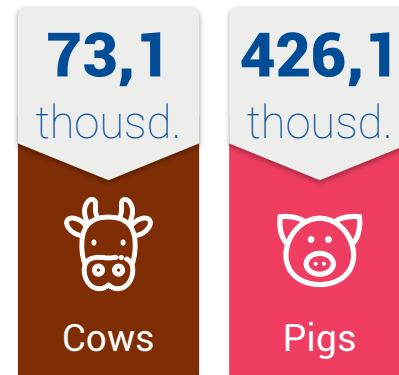

According to the results of 2016, farms of all categories received 3,5 mln tons of grain and sold 311 thousd. tons of livestock and poultry.

The infrastructure of the agrarian market is developing - in the region there are 62 storage facilities for storing vegetables and fruits, and there is a forked network of 68 grain stores for storage of grain and industrial crops.

Dnipropetrovsk region is the leading in Ukraine in terms of the breeding business subjects' number and the quality of pedigree resources. The genetic resources of dairy cattle breeding and pig breeding of the region are concentrated in 11 stud farms and 12 pedigree sow farms:

- in the dairy cattle breeding there are 8 stud farms and 7 pedigree sow farms;
- pig breeding of the region is represented by 3 stud farms and 5 pedigree sow farms.

In 2016, the volume of agricultural machinery production, in particular leavers and cultivators, increased by 9.5%.

MANUFACTURE OF FOOD PRODUCTS, BEVERAGES AND TOBACCO PRODUCTS

More than 130 enterprises are engaged in the food products production and agricultural products processing.

During 2016, enterprises of the region exported:

- ready-made food products for the amount of USD 110,0 mln;
- fats and oils - USD 289,4 mln.

The volume of capital investments in the production of food, beverages and tobacco products for 2016 amounted to UAH 977050 thousand.

PRODUCTION SHARE OUT OF THE TOTAL IN UKRAINE

Product	%
Milk	5,1
Other dairy products	13,4
Sausages	23,6
Flour	8,1
Bread and bakery products	13
Sunflower oil	6,5
Soft drinks	5,5

FOOD PRODUCTS EXPORT

Product	Countries
Chicken meat	Moldova, Kazakhstan, Iraq, Uzbekistan, Georgia
Alcoholic beverages	Germany, Israel, China, Latvia, Armenia, Estonia, Azerbaijan
Sunflower oil	Israel, Lebanon, Moldova, Georgia, Belarus, Korea, Slovenia, USA, Poland, Germany, Holland
Bread and flour products	Moldova, Kazakhstan, Uzbekistan, Azerbaijan, Belarus, Syria, Lithuania, Turkey
Confectionery	Moldova, Germany, Latvia, Georgia, Kyrgyzstan
Tomato paste, sauces, ketchups	Germany, Israel, China, Latvia, Armenia, Estonia, Azerbaijan

AGRICULTURAL COOPERATIVES

A promising area of entrepreneurship development in the agrarian sphere is the development of agricultural service cooperatives.

In 2016, 19 milk cooperatives produced 3175 tons of high-quality milk. It is amounted to 2% of the total milk sold in the region.

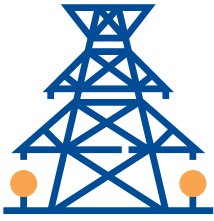

In general, the share of private households in milk production is 76.2%, which is a promising direction for the formation of dairy cooperatives in the region.

Within the framework of the international projects of the Government of Canada, since 2008, organizational and educational work has been carried out to develop the cooperative movement in Dnipropetrovsk region in various areas.

So, in 2017, within the framework of the project «Development of the dairy business in Ukraine», the second stage of the demonstration farm of the joint venture «Molocharske» was opened - a corps for 60 Holstein cows (the first stage - a casing for 60 cow of Jersey breed, opened in 2012).

The project «Development of granaries and agricultural cooperatives in Ukraine» provides for the construction of 57 thousand tons capacity grain storage on the basis of the agricultural cooperative «Zernoviy» in the urban type settlement Vasylykivka. In 2017, the first stage of a cooperative elevator with a 12.7 thousand tons capacity was built.

Dnipropetrovsk region is one of the most energy-saturated in Ukraine. It takes the second place after Kyiv.

Prydniprovsk power station combined heat and power station	1,8 thous MWt
Kryvyi Rih power station combined heat and power station	2,9 thous MWt
Dniprodzerzhynsk power station hydroelectric power station	0.35 thous MWt

The energy generating industry of the region includes the following power generating enterprises: «Kryvyi Rih combined heat and power station» PJSC of «DTEK Dniproenergo» and «Prydniprovsk combined heat and power station PJSC of DTEK Dniproenergo, Dniprodzerzhynsk hydroelectric power station branch of Ukrghidroenergo» and «Dniprodzerzhynsk thermal power station». In the region produced 5.6% of electricity production in Ukraine.

OBJECTS OF ALTERNATIVE ENERGY

Field of activity	Generating companies	Installed capacity
Bioenergetics	The largest biogas plant in Europe (village Yelysavetivka, Petrykivka district), which processes bird droppings for heat, electricity and organic fertilizer.	5 MW
Bioenergetics	Thermal power station on biomass (1B/2 Poliova Str., Znameniivka village, Novomoskovsk district) The heat output of the «green» generation facility is 12 Gcal/h.	3,6 MW
Bioenergetics	Solid fuel boiler house, which supplies heat to five medical institutions. (15-b Kosmichna Str., Dnipro city). Boiler house with a total capacity of 10.5 MW (fuel: pellets from biomass - pallets from sunflower husks).	10,5 MW
Bioenergetics	Biogas plant (Pischanka village, Novomoskovsk district). Private business „Sigma”. Cost is UAH 16 mln.	0,6 MW
Solar power	Mobile solar power station Solar Park Pidhorodne (Pidhorodne town, Dnipropetrovsk region) 10400 modules with a total capacity of more than 2.5 MW.	2,5 MW
Solar power	Solar power station (Pokrov city). Cost is UAH 17mln. The Solar power station capacity is 7 MW and provides energy for more than 1,000 houses with clean energy.	7 MW

2 projects for the construction of complex of alternative electric power stations with a total capacity of 102.3 MW is being implemented in the region over the past 2 years.

Project initiators:

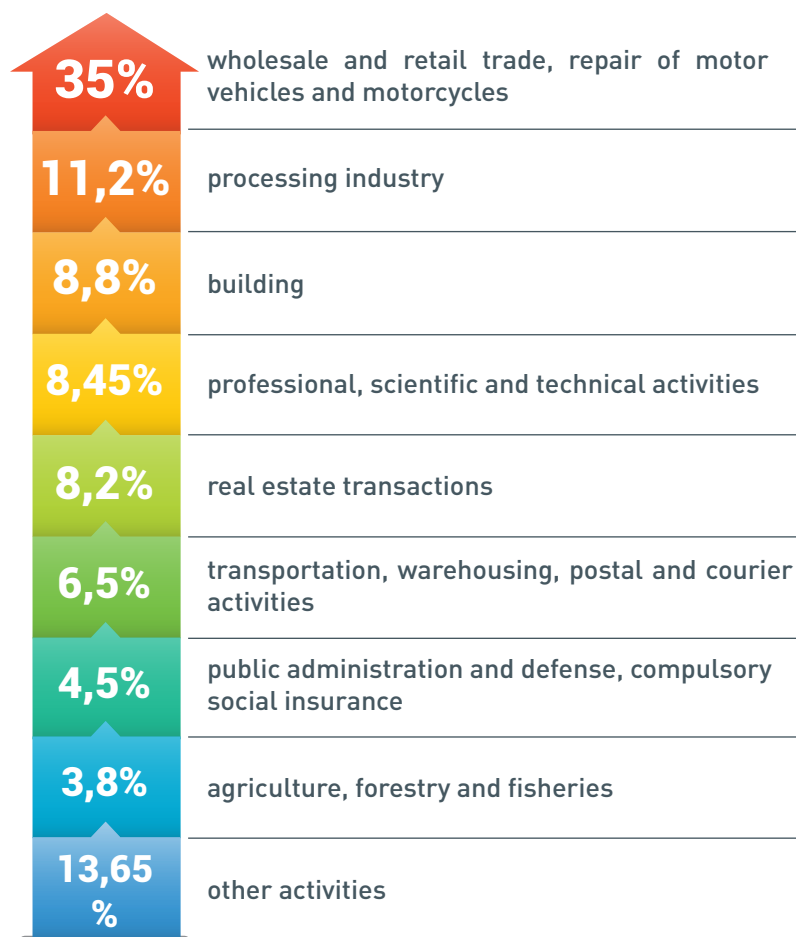

- «Vector-Solar» Ltd - solar power station complex construction with capacity of 100 MW;
- «Enerhosontse» Ltd - solar power station construction with a capacity of 2.3 MW.

Dnipropetrovsk region is the second among the regions of Ukraine in terms of small and medium-sized enterprises number, which amounts to 36,726 units, 960 of which are medium businesses and 35,766 are small ones. 274 thousand persons (34, 6% of the total working-age population in the region) are employed in the above-mentioned field.

The share of sold industrial products by regional small and medium-sized enterprises is 11.2% of the total SMEs sales volumes in Ukraine and ranks second after the capital.

From the total output of the region's enterprises, the output of SMEs is about 40%.

SMEs are developing in almost all key sectors of the regional economy:

In 2016, the Program for Small and Medium-sized Entrepreneurship Development in Dnipropetrovsk region for 2017 - 2018 was approved. This Program defines the priority directions for SMEs development:

In Dnipropetrovsk region there are more than 200 domestic and foreign IT companies, including Danish companies, Ciklum and Sitecore, Dutch company Daxx, Swiss company Luxoft, American companies Maxymiser, Archer Software and others.

The development of IT-industry in the region is supported by such world leaders as Google, Microsoft, Wargaming, Noosphere Ventures, Concord Bank, WIX, Yalantis, RubyGarage.

In Dnipro city, the international ITEM conference has already been held for the fifth year. This is the most significant IT-event in Ukraine.

The main topics are:

- Project management;
- High technology;
- Development of Ukrainian IT-environment;
- Sales to the West.

The speakers of the conference were such famous figures as: Sophie Charlotte Moatta - Facebook project manager; Tom Gilb Agile-teacher; and other speakers from such global companies as Google, Wargaming and Spotify.

In 2016, 9700 workers were engaged in scientific and technical work in organizations, institutions and enterprises of the region, including 380 doctors of science and 1086 candidates of science. The scientific organizations of the region have done their own scientific and technical works for the total amount of almost UAH 1843,8 mln, which is 2 times more than in the same period of 2015.

The innovations aimed at improving the technological and technical base of production and product renewal.

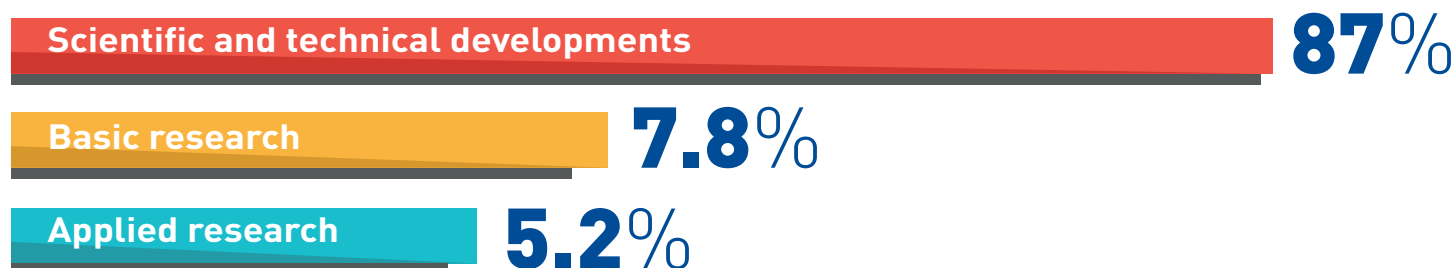

By 2016:

were introduced 77 new technological processes,
production of 150 kinds of innovative products,
 of them **80** new types of equipment.

Innovative technologies were introduced by **43 industrial enterprises** of the region.

The volume of realized innovative products amounted to more than UAH 1,8 bln – this is 15% of the total state.

STRUCTURE OF REALIZED INNOVATIVE PRODUCTS

In the region there are such domestic research and design organizations as:

- «Yuzhnoye» State Design Office;
- «Institute of Grain Cultures of the National Academy of Sciences of Ukraine»;
- «Institute of Technical Mechanics»;
- «Ukrmetallurgprom»;
- «Institute of Ferrous Metallurgy named after Nekrasov»;
- «State Dnipro Design Institute»;
- «State Pipe Institute named after Osada».

FREE TRADE AGREEMENTS

48

Ukraine is an associated member of the European Union, in accordance with the Association Agreement between Ukraine and the European Union, which entered into force in full from September 1, 2017. A part of this Agreement is the Deep and Comprehensive Free Trade Area between Ukraine and the EU.

In accordance with the above mentioned and taking into account other international agreements of Ukraine on free trade, enterprises of the Dnipropetrovsk region have preferences in the framework of their export activities, in particular: cheaper production due to exemption from customs duties, reduction of time in trade through simplification of customs and transit procedures, creating favorable and stable business conditions for attracting investments and introducing new technologies.

In total, Ukraine has concluded **16 free trade agreements** that cover the markets of 45 countries around the world (about 800 million consumers):

Deep and Comprehensive Free Trade Areas, DCFTA.

The Free Trade Agreement between Ukraine and the member states of the European Free Trade Association (EFTA) - Switzerland, Norway, Iceland, Liechtenstein.

Agreements in the agriculture field between Ukraine and Norway, Ukraine and Iceland, Ukraine and Switzerland.

Free Trade Agreements between Ukraine and Canada, Montenegro, Macedonia, Georgia, and Moldova.

Free trade agreements between Ukraine and individual CIS countries (Azerbaijan, Uzbekistan, Tajikistan, Turkmenistan, Kyrgyzstan, Kazakhstan and Belarus).

Within the framework of the Generalized System of Preferences, the WTO, the United States and Japan, Ukraine receives the possibility of duty-free importation into the territory of these countries more than 3,500 types of goods, including industrial and agricultural groups.

-  Agreement with the European Free Trade Association (EFTA)
-  Deep and Comprehensive Free Trade Areas, DCFTA
-  Agreements with Canada, Montenegro, Macedonia, Georgia, Moldova, Azerbaijan
-  Agreements with Kazakhstan, Belarus, Tajikistan, Uzbekistan, Kyrgyzstan

FOREIGN TRADE OF GOODS OF DNIPROPETROVSK REGION

In 2016, export of goods of the region amounted to USD 5859,7 mln, import – USD 3478,4 mln. The positive balance of foreign trade in goods amounted to USD 2381,3 mln.

During the year, foreign trade relations were maintained with partners from 154 countries.

The export of goods to the countries of the European Union amounted to USD 1661,5 mln and increased compared to 2015 by 23.3%. From European Union countries, goods were imported at USD 1208,9 mln. Compared to 2015, this indicator increased by 6.2%.

3.1. IGOV ELECTRONIC GOVERNMENT SERVICES PORTAL

The **iGov** Electronic Government Services Portal, which was created by the volunteers of Ukraine and the world, has already been operating within the region for 2 years.

The iGov portal significantly reduces the time it takes to receive administrative services through the Internet resource.

More than 80% of administrative services have been translated into electronic format. Today there are more than 390 services in the following areas:

- registration data (166);
- geology (13);
- licensing (237);
- construction, real estate, land (78);
- environment (40);
- e-court (8);
- foreign economic activity and foreign investments (3);
- culture, art, religion (21);
- medicine (25);
- education (4);
- interaction with public authorities (19);
- trade (13);
- transport (26).

iGov system web portal: www.igov.org.ua

3.2. STATE REGISTRATION OF LEGAL ENTITIES AND INDIVIDUAL ENTREPRENEURS

To register or terminate the business activity of legal entities/individuals, the application may be submitted through the ASC or to the iGov Electronic Government Services Portal. Registration or termination of business activity of legal entities/individuals is carried out within 24 hours after receipt of documents.

3.3. PROZORRO IS A SYSTEM OF OPEN ELECTRONIC GOVERNMENT PROCUREMENT IN UKRAINE ACCORDING TO EU STANDARDS

ProZorro system was created on the initiative of business, public organizations and state bodies. The main purpose of the system is to make the use of public funds transparent and effective. Electronic trading platforms connected to the ProZorro database provide support for the participation of business representatives in public procurement, enable entrepreneurs to have free access to profitable government orders and save billions of budget funds by increasing competition in tenders (in 2016, budget savings amounted to 12 %).

The ProZorro system allows you to take part in open tenders through online auctions.

Non-residents of Ukraine may take part in auctions on the basis of the Law of Ukraine «On Public Procurement». According to this law:

- home and foreign participants of all forms of ownership and legal forms are involved in procurement procedures on equal conditions;
- executive authorities carry out procurement via the ProZorro system, if the cost of goods and services is more than UAH 200 thousand, and works - UAH 1.5 mln;
- the state enterprises – monopolists are required limits for goods and services – UAH 1 mln, works – UAH 5 mln.

Web portal of the ProZorro system: www.prozorro.gov.ua

3.4. ADMINISTRATIVE SERVICES CENTERS (ASC)

In order to support the effective business activity in Dnipropetrovsk region, 45 ASCs were created to provide 255 administrative services. It is the largest indicator in Ukraine regarding the number of the ASCs in the territory of one region.

Main services for business:

- state registration of a legal entity;
- issuance of a registered declaration for the beginning of construction works;
- issuance of a registered declaration of readiness for exploitation of an object which belongs to the I-III category of complexity;
- state registration of the land plot;
- issuance of an extract from technical documentation on normative monetary valuation of a land plot;
- provision of information from the SLC in the form of an extract from the State Land Cadastre on a land plot;
- providing a reference from State statistical reporting on the availability of lands and their distribution among lands owners, lands users, areas (according to the data form 6-ZEM);
- issuance of a decision on the provision for permanent use and lease of land plots for agricultural use of State property (for legal entities and individual entrepreneurs);
- registration of the declaration of object readiness for exploitation, which belongs to the I-III category of complexity;
- registration of the declaration on the start of construction works.

Regional virtual office of electronic administrative services of Dnipropetrovsk region:

www.e-services.dp.gov.ua

3.5. TAXPAYERS SERVICE CENTERS

As part of the reform of tax authorities into service divisions, the State Fiscal Service has formed 36 service centers for taxpayers, which provide more than 17 services to individuals and legal entities, in particular:

- providing references about the registration number of a taxpayer's registration card from the State register of individuals-taxpayers;
- providing references about the absence of debt payments to the budget controlled by the State Fiscal Service of Ukraine;
- registration of books of records, payment operations, account books, registers of payment operations;
- registration of single tax payers;
- registration of income and expenditure ledger of single tax payers;
- provision of advices on tax law and so on.

Also, the services are provided electronically through the «Electronic Payer's Cabinet» www.cabinet.sfs.gov.ua

3.6. CUSTOMS POSTS IN DNIPROPETROVSK REGION

There are 9 customs posts in the region which carry out customs clearance processes, from border crossing to paying customs duties and putting them into free circulation on the territory of Ukraine. The indicated customs posts cover all transport routes of the region and provide cargo transshipment services in river ports, railway stations, autoports and aviation cargo terminal.

Main services offered:

- execution of customs procedures related to commercial goods moving across the customs border of Ukraine, including on the basis of electronic documents (electronic declaration), with the help of technical control means, etc.;
- registration of fees (other obligatory payments) when moving goods of commercial purpose through the customs border of Ukraine and carrying out customs procedures;
- application of measures of customs and tariff control during implementation of foreign economic activity.

The Main Directorate of General Office of State Fiscal Service in Dnipropetrovsk region:

www.dp.sfs.gov.ua

**3.7. SMALL AND MEDIUM ENTERPRISES
SUPPORTING AGENCIES (SME)**

Municipal development agencies in the cities of Dnipro, Pavlohrad, Kryvyi Rih, Nikopol, Ternivka are working to create favorable conditions for entrepreneurship in the region. Also various organizations operate: Dnipropetrovsk Business Support Centre of Dnipropetrovsk Chamber of Commerce and Industry, Dnipropetrovsk Regional Investment Agency (DIA), Small and Medium Enterprises Support Center, and others.

Services offered:

- entrepreneurship development support;
- public-private partnership;
- consultations on organization of socially responsible business and environmental management.

3.8. FINANCIAL RESOURCES ORIENTED AT SUPPORTING OF SMES

The extensive network of banking institutions confirms the status of Dnipro city as a business capital. The region contains offices of state banks «Oschadbank», «Ukreximbank», «Ukr gasbank», «Privatbank», international banks: Credit Agricole (France), Raiffeisen Bank (Austria), OTP Bank (Hungary), ProCredit Bank (Germany) and domestic banks: FUIB, Megabank, Southern and others.

International support for investment activities of enterprises is implemented through International Financial Institutions: German-Ukrainian Fund (GUF), EBRD, EIB, WNISEF and USAID projects:

- American Fund «Western NIS Enterprise Fund» (WNISEF) through Oschadbank initiated a lending program at 5-10 % per annum;
- USAID project «Support for agricultural and rural development» («Ahrosilrozvytok») provides grants for new equipment of farming machinery;
- German-Ukrainian Fund (GUF) – a Micro-lending Program, with maximum rate for MSB – 16 %.

3.9. CURRENT STATE AND LOCAL PREFERENCES:

Exemption from VAT (20%):

- facilities which run on renewable energy;
- energy conservation equipment, components and materials;
- production of electricity from alternative sources, which has no analogues in Ukraine;
- development of IT products.

Exemption from import duties:

- investors, operating under production sharing agreements;
- equipment for arrangement of industrial, scientific, technical parks, which is not produced in Ukraine;
- facilities which run on renewable energy sources and energy conservation equipment, which are not produced in Ukraine;
- materials, components and assemblies for agriculture, which are not produced in Ukraine.

Local privileges (by decision of local self-government bodies):

- preferences related to immovable property tax;
- preferences regarding land tax;
- preferences related to land rent.

3.10. CALL CENTERS OF DNIPROPETROVSK REGION

Today, the largest call centers serve tens of thousands of companies around the world. Almost 90% of labor costs are spent on outsourcing.

More than 20 companies in the region offer outsourcing services for customers through contact centers.

Areas of work: service and customer support, phone sales, customer engagement, telemarketing, technical support, customer retention and customers' loyalty management.

INVESTMENT PROJECTS

INVESTMENT OFFERS

PERMIT PROCEDURES FOR
INVESTMENT PROJECTS IMPLEMENTATION

According to the volumes of attracted foreign direct investments, the region confidently ranks 1st among the regions of Ukraine.

At the beginning of 2017, the volume of foreign direct investment attracted to the economy of the region amounted to:

3481.3 mln
USD

The volume of foreign investments per resident of the region amounts to USD 1,074,7 mln, which is 1,2 times higher than the figure for Ukraine (USD 886,0).

The largest volume of foreign investment was invested into industry – 53,5%, trade – 20,4%, real estate transactions – 13,1%, activities in the administrative and support services – 4,4%, professional, scientific and technical activities – 4,2% and into other industries.

The foreign direct investment came from 23 countries.

The main investing countries, accounting for more than 90% of total investments made since the beginning of the year, include:

Cyprus
\$10,2 mln

France
\$8,1 mln

Virgin Islands (Great Britain)
\$7,3 mln

Hong Kong
\$1,3 mln

Switzerland
\$1,1 mln

Germany and Poland
\$0,7 mln

In 2016, the region's enterprises made direct investments in Belarus and Kazakhstan.

In the territory of Dnipropetrovsk region, there are leading foreign investor companies which produce modern world-class products.

«Procter & Gamble Ukraine» Ltd (USA)
is known for its products of household chemicals

«Glas Trösch Dnipropertovsk» Ltd (Switzerland)
produces modern energy-efficient double-glazed windows and facade windows.

HEIDELBERGCEMENT

«HeidelbergCement Ukraine» PJSC and
«Caparol Dnipro» Ltd (German)
produce modern materials for construction.

«MAISADOUR Semences Ukraine» Ltd,
Lactalis group («Milk House») and
Lesaffre group («NADEZHDA» PJSC)
operate in the agrarian and processing
industry.

The main investors in 2016 become the domestic companies of:

the metallurgical complex

«Dniprostal Metallurgical Plant», Ltd

the mining industry

«DTEK Pavlohraduhillia», PJSC

«Central Grain Processing Plant», PJSC

the trade sector

Modular breakwater-power plant	Otis Tarda, Ltd	Manufacturing of the equipment in the renewable energy sector for the order of Spanish companies from the Canary Islands and the Balearic Islands.	Project cost: \$ 3 mln	2 years	Renewable energy 
Logistics center «GREEN MARKET»	Dnipropetrovsk Regional Investment Agency (DIA) www.dia.dp.gov.ua	Creation of logistics center for storage and transportation of agricultural products «Green market» for collection, storage, package, primary processing of agricultural products, goods delivery during the year, expansion of export potential of the region. Sales markets/clients: wholesale markets, Ukraine trade networks, foreign markets.	Project cost: \$ 8 mln	Creation of logistics center - 11 months	Agriculture 
Leisure Centre «GOLF RESORT» Petrykivka district	Dnipropetrovsk Regional Investment Agency (DIA) www.dia.dp.gov.ua	Construction of a Leisure Centre on the land plot, which is free of buildings and located along the road. It will help to diversify the entertainment industry of such cities as Dnipro, Kamianske as well as Dnipro and Petrykivka districts and promoting golf as a sport.	Project cost: \$ 8 mln. (Economic indicators are depending on the chosen project)	2 years	Sports and entertainment 
Motor-racing track «MotorParkDnipro» Petrykivka district	Dnipropetrovsk Regional Investment Agency (DIA) www.dia.dp.gov.ua	Implementation of an infrastructure project on the land plot, which is free of buildings and located along the road, for placing a motor-racing track «MotorPark Dnipro». Promotion of automobile and motorcycle sport. Creation of safe conditions for amateur racers' competitions by moving them from the settlements' streets to a specialized site.	Project cost: \$ 12 mln. (Economic indicators are depending on the chosen project)	12 months	Sports and entertainment 

BUILDING PERMISSION

Building permission in Dnipropetrovsk region is issued by Department of State Architectural and Construction Inspectorate (SACI) in Dnipropetrovsk region.

The Department (SACI) in Dnipropetrovsk region carries out its work in several directions:

The Department (SACI) in Dnipropetrovsk region provides citizens with licensing and registration services, as well as advices on construction, reconstruction and acceptance of objects into service.

The services offered:

- registers the notifications and declarations about the beginning of preparation and construction works (I-III category of construction complexity). In case of improper execution of these documents, they return them to the applicants;
- issues permits for construction works (IV-V category of construction complexity), refuses to issue these permits and, in cases determined by law, cancels them;
- accepts the completed construction objects into service (issues the relevant certificates, registers the declarations of facility readiness for operation and returns such declarations).

Maintains a single register:

- of received notifications about the beginning of preparation and construction works;
- of registered declarations about the beginning of preparation and construction works;
- of issued permits for construction works;
- of registered declarations of facility readiness for operation and issued certificates;
- of returned declarations and refusals to issue such permits and certificates, and licenses issued for economic activities related to creation of architectural objects.

Documents may be submitted at the ASCs or through the iGov service.

SACI of Ukraine carries out licensing of economic activities related to the creation of architectural objects. That is, it provides licenses to companies which want to work in the construction industry. In addition to the licensing procedure, the State Architectural and Construction Inspectorate conducts a register of issued licenses.

Department of State Architectural and Construction Inspectorate in Dnipropetrovsk region:

www.dabi.gov.ua

Address: 29, Sicheslavskya Naberezhna Str., Dnipro city; Phone: +38 (056) 745 40 76, +38 (056) 726 53 16

ALLOTMENT OF LAND

Registration of rights to the land plot is carried out in the form of an auction on the basis of which a lease or purchase agreement is concluded with the winner of the land auction, who offered the highest payment for the use of the land plot (lease) or the highest price for the land plot.

COMPETENCE RELATED TO ALLOTMENT OF THE LAND PLOT:

allotment of land within a settlement
– **city council / village council.**

allotment of industry land outside a settlement
– **Dnipropetrovsk Regional State Administration.**
www.adm.dp.gov.ua

allotment of agricultural land outside a settlement
– **general directorate of State GeoCadastré in Dnipropetrovsk region.**
www.dkzr.dp.gov.ua

Documents may be submitted at the ASCs or through the iGov service.

Information on the agricultural land plots submitted for the auction, indicating their location, area and cadastral numbers, as well as the starting amount of annual rent, are available on the website of State Service of Ukraine for Geodesy, Cartography and Cadastre in the section «Land Auctions / List of areas» (www.land.gov.ua).

Dnipropetrovsk Regional Investment Agency, through the online resource «Interactive Map» (www.dia.dp.gov.ua), offers more than 400 lots total area of 13.8 thousand hectares, for investment projects.

CONNECTION TO GAS DISTRIBUTION NETWORKS

The gas supply for enterprises of Dnipropetrovsk region, depending on the location, is carried out by the following companies:

Name	Address	Service area
«Dniprogaz» JSC	5, Volodarskyi Str., Dnipro city, tel.: +38 (056) 745 50 11, e-mail: office@dneprogaz.dp.ua, website: www.dpgor.104.ua	Dnipro city, Dnipro district.
«Dnipropetrovskgas» JSC	2, Shevchenko Str., Dnipro city, tel.: +38 (056) 247 17 44, tel.: +38 (056) 247 74 92, e-mail: oblgas@dpgas.com.ua, website: www.dp.104.ua	Dnipropetrovsk region.
«KryvorizhGaz» JSC	1, Metalurhiv Ave, Kryvyi Rih city, Dnipropetrovsk region, tel.: +38 (056) 462 61 04, tel.: +38 (056) 462 61 04, e-mail: kancelyar@krgas.com.ua, website: www.kr.104.ua	Kryvyi Rih city, Kryvyi Rih district.

Services offered:

- execution of a complex of works on design, construction, repair of objects of gas supply and gasification systems;
- provision of technical conditions for execution of design documentation for gasification;
- development of design and estimate documentation for gasification;
- approval of projects for gasification;
- earthworks, land rehabilitation at repairs of pipelines;
- dismantling, pipe breaking, welding and assembly works while pipeline repair;
- performance of gas dangerous works on the territory and in fire explosive facilities under conditions of operating enterprise;
- maintenance of operating gas supply systems;
- rendering of services on mounting, adjustment, assembly of equipment, maintenance and operation of imported electronic gas equipment at enterprises and subscribers.

CONNECTION TO ELECTRIC GRIDS

Distribution of electricity for enterprises of Dnipropetrovsk region is carried out by the following companies:

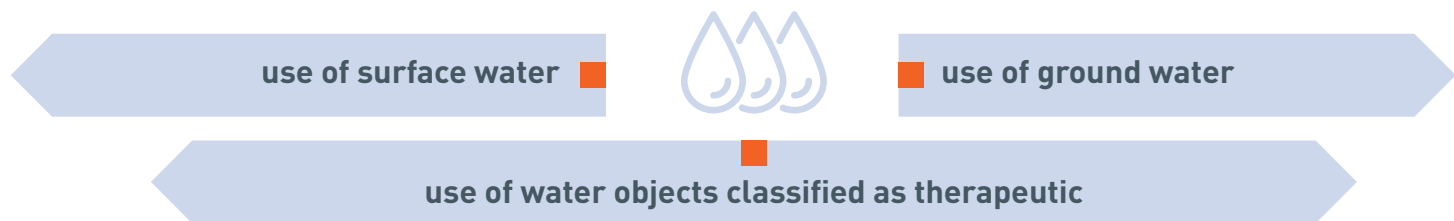

Name	Contact Information
«DTEK Dniprooblenergo» PJSC	22, Zaporizke Shose Str., Dnipro city, tel: +38 (056) 373 53 41; website: www.doe.com.ua
«Enterprise for operating electric grids «Central Energy Company» PJSC	28, Dmytro Kedrin Str., Dnipro city, tel: +38 (056) 231 03 84 (office), Call-center: 0 800 300 015 e-mail: kanc@cek.dp.ua website: www.cek.dp.ua
Dnipropetrovsk Bulk Power Systems of State Enterprise National Power Company «Ukrenergo», Dnipro	20a, Zaporizke Shose Str., Dnipro city, tel: +38 (056) 740 90 59

Services offered:

- development and production of technical specifications;
- development and production of design of external, internal power supply;
- grid connection;
- performance of electrical works;
- execution of certificate of delineation of balance sheet attribution for electric grids;
- concluding a contract on the power supply;
- examination concerning power supply to the new or refurbished electricity-generating equipment for corporate customers;
- servicing of private transformer substations;
- examination concerning power supply to the new or refurbished electricity-generating equipment for corporate customers.

SPECIAL WATER USE

Permission for special water use is provided by the Sector of State Water Resources Agency of Ukraine in Dnipropetrovsk region, such as:

Sector of State Water Resources Agency of Ukraine in Dnipropetrovsk region:

www.scwm.gov.ua/contact

Address: 39-a, Dmytro Yavornytskyi Ave, Dnipro city;
tel.: +38 (056) 713 53 77; e-mail: dnipro_to@scwm.gov.ua

SUBSOIL USE

Permission to use the subsoil is issued by State Service of Geology and Mineral Resources of Ukraine.

Permits are granted for such types of subsoil use:

- geological exploration of mineral deposits;
- geological study, including research and industrial development of mineral deposits of national importance;
- mining;
- geological exploration of oil and gas mineral resources, including research and industrial mining, with further extraction of oil and gas (commercial development);
- construction and operation of underground facilities not related to mining, including underground storage facilities for oil, gas and other substances and materials, disposal of hazardous substances and wastes, disposal of waste water;
- creation of geological areas and sites which have great scientific, cultural, health and recreational value (scientific grounds, geological reserves, natural monuments, health, recreational facilities, etc.);
- performance of works (activities) provided by production-sharing agreement.

State Service of Geology and Mineral Resources of Ukraine: www.geo.gov.ua

Address: 16, Eugene Pottier Str, Kyiv,

Management of mineral resources: tel.: +38 (044) 536 13 20; e-mail: sekretar@geomail.kiev.ua

DNIPROPETROVSK
INVESTMENT AGENCY

ABOUT DNIPROPETROVSK REGIONAL INVESTMENT AGENCY

The Dnipropetrovsk Regional Investment Agency (DIA)

Was established in 2011 upon regional authorities' initiative. The agency cooperates with different foreign and domestic companies for investment project implementation in the region's territory. It acts as a communicator between investor and regional authorities.

GOALS

Support and promotion of potential investors in the region;
Assistance in site selection and passing of licensing procedures to the construction of new facility and setting it into operation.

AGENCY'S ACTIVITIES

- **Initiation** of promising investment projects creation and investment-attractive communities' areas.
- **Forming** and provision of primary analytical information, which is necessary to make investment decisions.
- **Carrying out** the initial plot selection in accordance with the investors needs (the Agency database has more than 400 plots with total area of 13,8 thousand ha)
- **Assistance** in selection of potential partners with corresponding competence (the Agency has the Competence Database of regional companies from different fields of activity)
- **Providing** services of personal investment manager. The Agency makes project implementation road map.
