

## Creation of a new residential area in the city of Novomoskovsk

### Proposal description

The territory for residential development is offered in the central part of the city of Novomoskovsk for creation of a new residential area. The territory has an advantageous logistics infrastructure, as well as a coastline that can be equipped for recreation of local residents and guests of the city.

### Proposal initiator

Novomoskovsk TC

### Proposal goals

- development of the city, improvement of the adjacent territory and an increase in residential areas;
- making a profit through the sale and lease of premises to business entities;
- arrangement of the territory along the coast of the Samara river to create a recreational area;
- involvement of local enterprises in the joint implementation of the project.

The area of the land plot, its specific and particular features, as well as the location allows for the improvement of the territory of the residential area and creation of playgrounds, recreation areas, supermarkets and other infrastructure necessary for comfortable living here.

### Mechanisms for cooperation

Lease

### Proposal economic indicators

Economic indicators are calculated by the investor depending on the project for the construction of a residential area

# RESIDENTIAL CONSTRUCTION
